

INNOVATIVE CLOUD INFRASTRUCTURE

Room for massive scale. Automation for effortless management. Security for peace of mind.

When it comes to your billing platform's infrastructure, these qualities can make all the difference. For Rev.io users, these features are ensured by our modern cloud infrastructure, hosted by Microsoft® Azure.

HERE'S HOW OUR INFRASTRUCTURE CAN GIVE YOU:

INCREASED CAPACITY

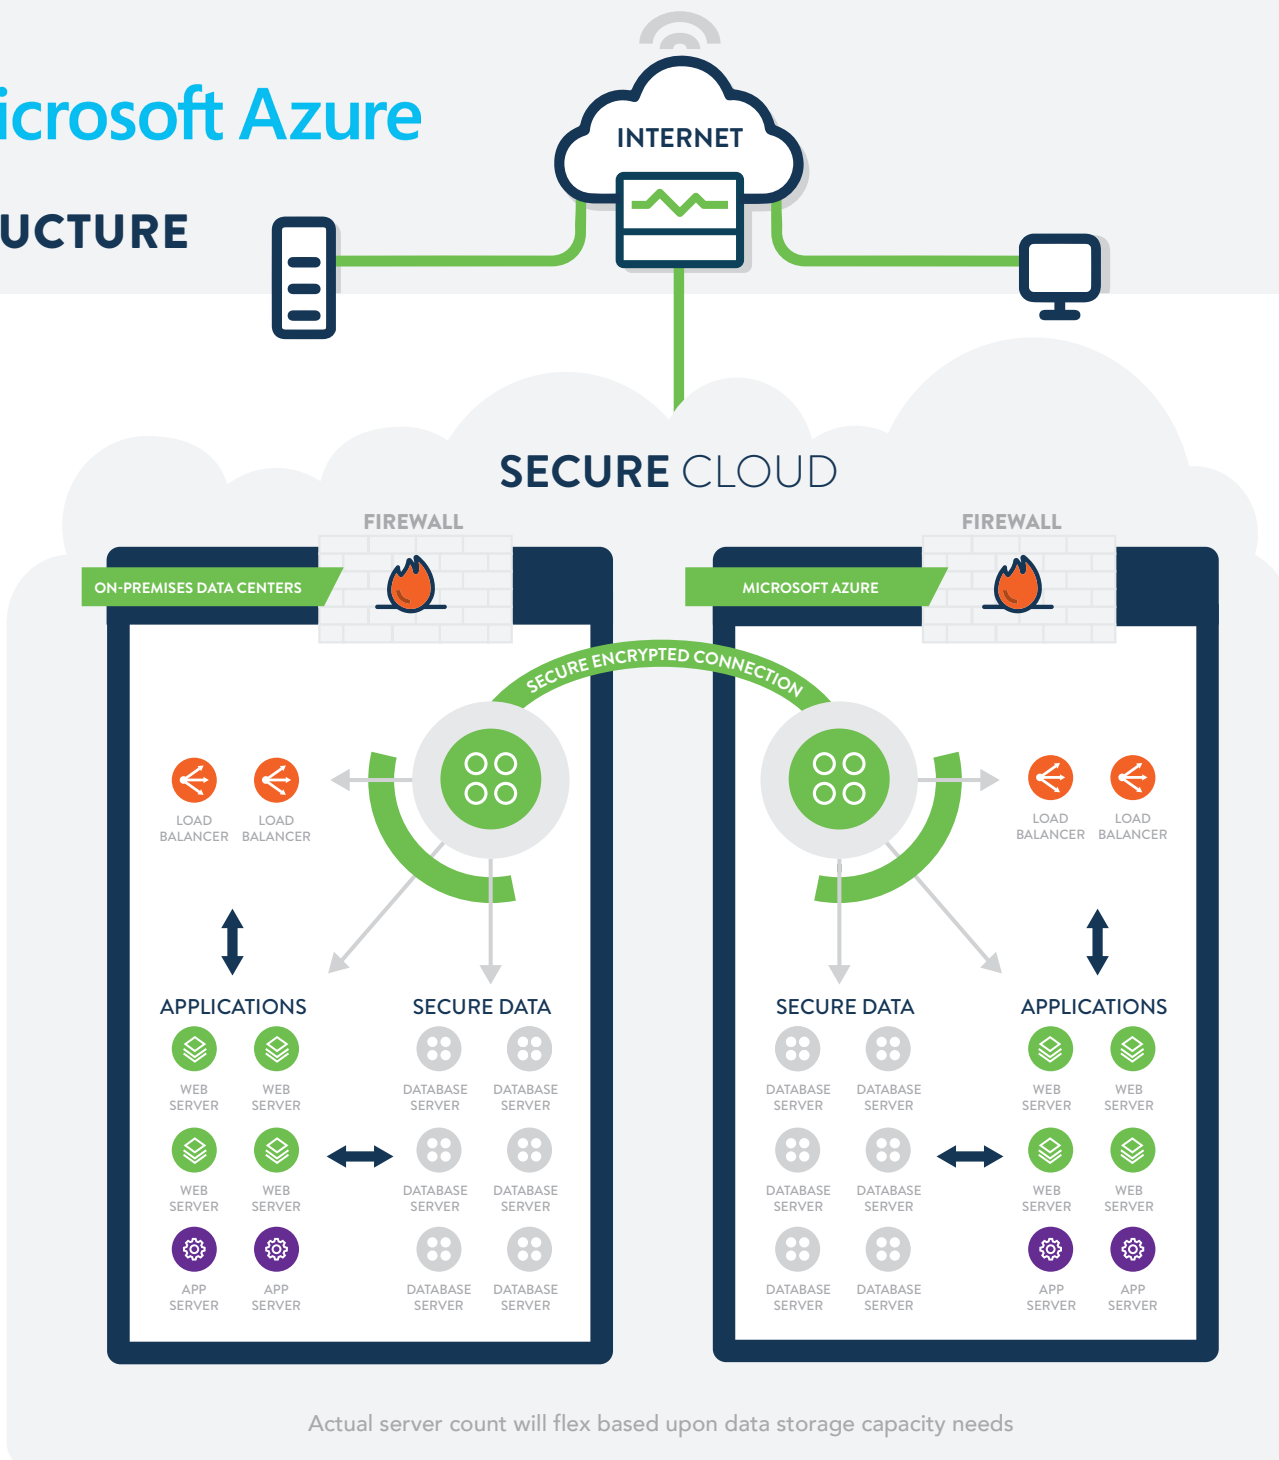

With virtually limitless cloud capacity, Rev.io comes fully equipped to support your rapid growth plans. Any concerns you have for supporting growth spikes in data for rating will soon become a distant memory.

RESPONSIVE AUTOMATION

With our cloud infrastructure, you won't have to worry about sudden system overloads. Microsoft® Azure features automation to monitor your account status and accelerated growth trends, responsively building out extra space as needed.

STRENGTHENED SECURITY

Compared to on-premise hosting, Microsoft® Azure's cloud infrastructure delivers higher-level security at a cost-effective price. With this built-in reassurance, Rev.io platform users can focus on what matters most: growing revenue efficiently.

*Microsoft® Azure is a trademark of the Microsoft group of companies.
